

LE BA TRONG Business Analyst

Date of Birth: 10/02/2005 **Gender:** Male **Email:** tronglb23416@st.uel.edu.vn

Phone: 0825226120 LinkedIn | GitHub **Address:** Ho Chi Minh City

Availability: 3-4 days/week in office

Summary

Final-year Digital Business & AI student at University of Economics and Law (VNU-HCM), GPA 8.34/10. Hands-on experience in end-to-end requirements analysis: stakeholder elicitation, process modeling (BPMN 2.0, DFD), user story writing, and UAT test case design. Proficient in Figma wireframing, data analysis (SQL, Python), and Agile ways of working. Seeking a Business Analyst Intern role in a product-driven, data-centric environment (fintech/insurtech) to apply analytical thinking and product design to real business problems.

Professional Skills

- **Requirements Analysis & Modeling:** Requirements elicitation, User Stories & Acceptance Criteria, Traceability Matrix, Stakeholder Analysis, BPMN 2.0 process modeling, DFD, Use Case diagrams.
- **Product & Design:** Figma (Wireframing, Prototyping, Design Tokens), User Flow Mapping, Information Architecture, UI/UX Prototyping
- **Data & Technical:** SQL (queries, analysis), Python (pandas, data analysis), Excel/Sheets, Git; basic understanding of database design
- **Methodologies:** Agile/Scrum, understanding of Software Development Lifecycle (SDLC)

Experience

Data Engineering Intern — ShopBack 04/2026 – 07/2026

Learning Internship Program

- Coordinated with Data Pipeline and Control Tower teams to gather operational requirements, document data governance processes, and understand SLAs between teams — building practical BA capabilities in stakeholder coordination and technical requirements analysis.

Key Projects

UNI-BRIDGE — Student–Enterprise Project Marketplace 12/2025 – 03/2026

System Analysis & Design Course — Team Lead

- **Requirements & Stakeholder Management:** Led structured interviews with 4 user groups (students, enterprises, staff, admins); consolidated 50+ functional/non-functional requirements into a comprehensive Traceability Matrix aligned with business goals.
- **Process & System Modeling:** Delivered comprehensive BPMN 2.0 process models (2 key processes), DFD (3 levels), sequence diagrams, and ERD — all validated through UAT rounds with stakeholders.
- **Product Specification:** Wrote detailed use cases with acceptance criteria, documented system flows, and built an interactive Figma prototype for stakeholder review and approval.
- **Agile Mindset:** Collaborated with a 4-person team using iterative design cycles, feedback loops, and scope management over an 11-week delivery.

THO Studio — E-commerce & Workshop Booking Platform 2026 – 2026

End-to-End Product Project

- **Requirements Elicitation:** Conducted in-depth interviews with pottery artisans to uncover pain points; scoped 2 main systems (Online Store, Admin Dashboard) serving 4 user groups.
- **Product Documentation:** Built a 15+ page sitemap, comprehensive Figma wireframes (checkout flow, booking system, tracking dashboard), design tokens, and a coherent visual language across screens.
- **Process Modeling & Design:** Documented processes with BPMN 2.0, DFD, and 6 detailed use cases; designed innovative solutions including a hybrid cart system and a 7-step pottery production tracker (Forming → Firing → Glazing → QC → Shipping).
- **AI-Integrated Solution:** Designed a chatbot workflow collecting user preferences to recommend suitable workshops and send data to artisans to increase engagement.

E-commerce Data Analytics Pipeline 03/2026 – 06/2026

Personal Project

- **Business Problem Analysis:** Analyzed 650,000+ transaction records to diagnose operational bottlenecks and revenue drivers.
- **Data-Driven Insights:** Identified key issues: 97% one-time customers and delivery delay (>14 days) caused review score drop (4.2 → 3.1), directly impacting customer perception and repeat business.
- **Business Recommendations:** Translated data findings into actionable product improvement strategies for supply chain optimization and repeat customer retention.

Education

University of Economics and Law (UEL) — VNU-HCM Expected completion: 11/2026 · Graduation: 06/2027

Bachelor in Digital Business & AI

GPA: 8.34/10 | **Relevant Coursework:** System Analysis & Design, Data Warehousing, Database Management, DBMS, Business Web Development, Machine Learning

Certifications & Languages

- Google Generative AI Essentials (2026) | Google Data Analytics Professional Certificate (In progress)
- TOEIC Reading & Listening — 640 (2025)
