Availability: On-site internship

About Me

Final-year Business Information Management student at UEL (8.34/10) with an interest in digital marketing and e-commerce operations. Through academic projects, I have researched customer needs and competitors, managed content for a Facebook page, and coordinated teammates to develop and present business solutions. I enjoy understanding how customer insights become practical project decisions and hope to support market research, project coordination, and client proposals in a real business environment.

Relevant Skills

- **Research & E-commerce:** Market and competitor research, customer behavior analysis, customer journey mapping, e-commerce fundamentals
- **Project & Communication:** Team coordination, progress tracking, business documentation, slide preparation, stakeholder interviews
- **Tools:** PowerPoint, Excel, Google Workspace, Figma, Power BI, SQL, Python, n8n

Projects

WanderHUB — Digital Marketing & Facebook Page 2026

Digital Marketing Coursework | Team Project

- Managed a project Facebook page, prepared and published posts as part of the team's digital marketing activities.
- Researched the market and competing pages/brands to inform content direction and project recommendations.
- Prepared presentation slides summarizing research, proposed activities, and the team's marketing approach.

UNI-BRIDGE — Student–Enterprise Collaboration Platform Dec 2025 – Mar 2026

System Analysis & Design | Team Lead

- Coordinated a student project team over 11 weeks, organizing requirements, project scope, and review feedback.
- Gathered needs from four stakeholder groups and documented 50+ functional and non-functional requirements.
- Prepared process documentation and an interactive prototype to communicate the proposed solution.

E-commerce Customer & Business Insights Oct 2025 – Present

Personal Project

- Analyzed 650k+ e-commerce transactions and customer purchasing patterns to explore retention and service performance.
- Identified lower average ratings for deliveries delayed over 14 days (3.1 vs. 4.2), informing customer-experience recommendations.
