About Me

Final-year Business Information Management student interested in translating business needs into practical software solutions. I enjoy connecting stakeholder needs with clear workflows and practical system designs. Through UNI-BRIDGE, I have worked on requirements and system modeling and now lead a five-member team through project planning. I hope to grow in requirements analysis, cross-functional coordination, and software delivery.

Relevant Skills

- **Business Analysis:** Requirements gathering, functional/non-functional requirements, Use Case modeling, stakeholder communication.
- **Process & Data Modeling:** BPMN, ERD, process flows, database fundamentals, SQL.
- **Prototyping & Collaboration:** Figma, user flows, WBS, Gantt scheduling, RACI, risk register, team coordination.
- **Technical Foundations:** SDLC fundamentals, REST APIs, Python, Git/GitHub, Microsoft Office.

Projects

UNI-BRIDGE — Business Analysis & IT Project Management 2026 – Present
BA Project Lead (Phase 1) / Project Manager (Phase 2) | 5-Member Team

- Consolidated 50+ functional and non-functional requirements from four stakeholder groups; modeled system interactions and business processes with Use Cases, BPMN, and ERDs.
- Led documentation reviews and prototype discussions to align requirements, workflows, and proposed system features.
- Currently leading Phase 2 planning: preparing the Business Case, Project Charter, Scope Statement, WBS, activity list, Gantt schedule, and milestone plan.
- Coordinating task ownership and planning project budget, dependencies, and risks through a RACI matrix, network diagram, and risk log.

THO Studio — E-commerce & Workshop Booking Platform 2026
Team Project | Workflow & UI Prototyping

- Contributed to Figma prototypes and refined user flows for product browsing, ordering, and workshop booking.
- Used AI-assisted drafts as a starting point, coordinated with teammates on feature refinements, and integrated workflows with minor code adjustments.

Dongtay Promotion — Reporting Process Automation Dec 2025 – Mar 2026
University-Extended Project

- Mapped a repetitive YouTube data-collection process and supported an n8n/API workflow that reduced manual effort from 20 to 4 hours per week (80%).
- Analyzed engagement and audience feedback to support recurring marketing reports.

Additional Experience

ShopBack — Data Engineering Practicum Apr – May 2026
Academic Industry Program

- Worked on data quality checks and operational monitoring for a CDC-based data pipeline, strengthening attention to data consistency and system behavior.

Education

University of Economics and Law (UEL) — VNU-HCM Expected Jun 2027
Bachelor of Business Information Management — Digital Business & AI
GPA: 8.34/10 | Coursework: Systems Analysis & Design, Database Systems, Project Management.

Certifications & Languages

Google Generative AI Essentials (2026) | TOEIC Listening & Reading: 640 (2025)
