LinkedIn | GitHub **Location:** Ho Chi Minh City, Vietnam

Availability: On-site internship

About Me

Final-year Business Information Management student at UEL interested in how online stores, digital campaigns, and customer experience influence business results. Through e-commerce analytics and digital marketing projects, I have explored purchasing behavior, researched competitors, managed Facebook page content, and presented business recommendations. I hope to support day-to-day e-commerce operations, campaign execution, and performance reporting while learning how an FMCG brand grows across online marketplaces.

Relevant Skills

- **E-commerce & Marketing:** Customer journey mapping, content publishing, market and competitor research, familiarity with Shopee, Lazada and TikTok Shop as a shopper
- **Analytics & Reporting:** Customer segmentation (RFM), retention analysis, sales and customer behavior analysis, Excel, Power BI, SQL
- **Coordination & Content:** PowerPoint, presentation preparation, team coordination, Figma, Facebook page management, Python, n8n

Selected Projects

E-commerce Customer & Business Insights Oct 2025 – Present

Personal Project

- Analyzed 650k+ e-commerce transactions and purchasing patterns across approximately 99k customers; used RFM segmentation to explore retention opportunities.
- Found that deliveries delayed over 14 days were associated with lower average ratings (3.1 vs. 4.2), informing customer-experience recommendations.
- Organized transaction data for repeatable analysis and business reporting.

WanderHUB — Digital Marketing & Facebook Page 2026

Digital Marketing Coursework | Team Project

- Managed a project Facebook page and published marketing posts as part of a coursework campaign.
- Researched market trends and competitors to inform proposed content direction and marketing activities.
- Prepared presentation slides to communicate research findings and the team's marketing approach.

Facebook: WanderHUB

Dongtay Promotion — Marketing Analytics & Automation Dec 2025 – Mar 2026

University-Extended Project | Team Project

- Collected YouTube engagement metrics and audience comments to examine content performance and audience feedback.
- Automated recurring data collection with n8n and APIs, reducing manual work from 20 to 4 hours per week (80%).
- Applied sentiment analysis to organize feedback for marketing performance review.

GitHub: Marketing Analytics Project

THO Studio — E-commerce & Workshop Booking Platform 2026

Business Web Development Project

- Interviewed pottery artisans to understand online sales and booking needs; mapped customer journeys for browsing, checkout and order tracking.
- Prepared Figma prototypes and documented store and admin workflows for team review.

Demo: THO Studio

Experience

Data Engineering Practicum — ShopBack Apr – May 2026

Academic Industry Program

- Gained exposure to operational data workflows and validated transaction data quality to support reliable reporting.
