About Me

Applying to HEINEKEN Vietnam NextGen 2027 – Supply Chain to gain practical experience in operations, reporting, and process improvement within the FMCG industry. I am a final-year Business Information Management student with project experience in data transformation, quality testing, forecast evaluation, delivery analysis, and workflow automation. I have also coordinated requirements and planning activities for a five-member project team. Available full-time from December 2026.

Relevant Skills

- **Data & Reporting:** SQL (PostgreSQL), Python (pandas), Power BI, Excel, exploratory analysis, data visualization.
- **Data Quality & Transformation:** dbt, data quality test cases, ETL/ELT, data modeling, data validation.
- **Forecasting & Automation:** Model evaluation, error analysis, n8n, REST APIs, Apache Airflow; PySpark/Databricks (basic).
- **Business & Leadership:** Process mapping, requirements analysis, stakeholder communication, WBS, Gantt, RACI, risk planning.

Projects

Agri-Price Data Warehouse — Data Quality & Forecast Evaluation 2026
Team Project | dbt, Testing & Reporting

- Worked on dbt transformations of agricultural commodity price data across Bronze, Silver, and Gold layers, supporting structured datasets for commodity and time-based analysis.
- Prepared and executed test cases for missing values, consistency, and transformed outputs; reviewed data issues and documented test findings for the team.
- Evaluated time-series price forecasting results through prediction-error analysis and summarized model performance, limitations, and observations in project reports.

E-commerce Analytics — Delivery Performance & Customer Insights Oct 2025 – Present
Personal Project

- Prepared and analyzed 650k+ e-commerce transactions using SQL, Python, and dbt, organizing order, customer, and delivery information for repeatable analysis.
- Examined the relationship between delivery delays and customer reviews: orders delayed over 14 days averaged 3.1 stars versus 4.2 for other orders, indicating a service-quality concern worth investigating.
- Applied data validation checks and explored purchasing patterns to support consistent reporting on customer behavior and order performance.

Dongtay Promotion — Reporting Process Automation Dec 2025 – Mar 2026
University-Extended Project

- Reviewed the manual collection of YouTube video metrics and comments for recurring marketing reports; helped build an n8n workflow using APIs to retrieve and organize source data.
- Reduced manual collection time from 20 to 4 hours per week (80%); processed audience comments with sentiment analysis to support reporting on engagement and feedback patterns.

UNI-BRIDGE — Business Analysis & Project Planning 2026 – Present
Project Leader / Project Manager | 5-Member Team

- Coordinated analysis of a student–enterprise project marketplace, consolidating 50+ functional and non-functional requirements from four stakeholder groups and documenting processes using Use Cases, BPMN, and ERDs.
- Currently coordinating a five-member team's planning work, including scope definition, WBS, Gantt/network schedule, RACI, budget estimates, and risk register; reviewing deliverables for alignment with project requirements.

Education

University of Economics and Law (UEL) — VNU-HCM Expected Jun 2027
Bachelor of Business Information Management — Digital Business & AI
GPA: 8.34/10 | Coursework: Data Warehouse, Data & Visual Analytics, Project Management.

Certifications & Languages

Google Generative AI Essentials (2026) | TOEIC Listening & Reading: 640 (2025)
